Kieri Solutions as your C3PAO

- We are a small, lean team of experts, without bureaucratic overhead. We **move faster and give better answers** because we have knowledgeable people at every step of the process.
- Our **Quality Manager is Amira Armond**, a CMMC instructor, speaker, and blogger. She is an information systems architect and has practical real-world experience building and managing DoD and contractor networks.
- We are one of a few C3PAOs that passed our CMMC assessment with a **functional enterprise** network that includes **laptops, email, and BYOD**.

We did NOT present a pristine and unused enclave because that isn't functional. We wanted to prove that real defense contractors could pass CMMC.

- Our assessment teams do not require special considerations to work. You do not need to put your evidence onto a third-party platform or provide it hard-copy.
- We understand that networks need to be **functional and secure**. We encourage risk-based approaches and strong process to manage chaotic enterprise networks.

How Kieri Solutions can help

CMMC Readiness Review starting at \$5,000

Cost-effective review of your readiness to pass CMMC
Identify major issues with documentation, system security plan, FIPS, scoping, and design early
Future CMMC Level 2 assessment discounted

CMMC Level 2 pre-assessment starting at \$25,000

Identify exactly what needs to be corrected
Perform planning, review evidence, and prepare your team for full assessment in a more relaxed environment
Future CMMC Level 2 assessment discounted

CMMC Level 2 assessment starting at \$32,000

If you are ready, we can sponsor you for early assessment
Show your clients and partners that you are compliant
Skip the assessor shortage in 2023 – be eligible for contracts when CMMC requirements first appear

Kieri Compliance Documentation

- Simple and straightforward templates for NIST SP 800-171 and CMMC Level 2
- Ideal for enclaves and networks with < 1000 users
- Comprehensive policy, procedure, user agreements, forms, and compliance docs including system security plan pre-written to reference policies and procedures.
- Easily editable Word and Excel files. No restrictions.
- Templates, examples, and instructions save hundreds of hours of work and re-work
- Battle tested: Based on what we used to pass CMMC

Introductory pricing for 2022

\$3,000 – KCD only

All templates, access to updates for 12 months

\$8,000 – KCD + customization

Templates plus customization and training for organization by a Kieri subject matter expert (20 hours)

\$500/year – Access to updates after first year

Testimonials

“We are grateful for the service that Kieri Solutions provided and would be happy to provide our reference to any business considering Kieri Solutions services.” - VMware, Inc.

“Kieri Solutions is the real deal when it comes to cyber security. Their knowledge of CMMC, DFARS Compliance and cyber-security in general is second-to-none, and their approach, attitude and helpfulness is fantastic. Kieri is an exemplar of cyber excellence, and I'd highly commend any client with cyber security needs to Kieri Solutions.” – Nova Blue Technologies

“The quality of work is exceptional.” – Siber Systems, Inc.

“Amira Armond (Kieri Solutions) operates with competence and integrity. She’s also a natural teacher, willing to explain the magic behind the server fixes and to develop controls to dramatically improve security throughout the organization. She communicates clearly and can quickly prioritize IT issues. There is no one I would trust more to make my IT resilient.” – Native Intelligence, Inc.
